What are you already doing?

• Hackathons / competitions
• Employer insight days / weeks or assessment centres
• Mentoring or outreach
• Course rep
• Sports leadership

www.bristol.ac.uk/plus-award
Why do it?

“The Bristol PLUS Award has been a very rewarding scheme which has enabled me to develop both professionally and personally. Whilst deciding on career direction and undergoing the job search process, attending the Careers Service workshops really helped. The skills developed through the award are a key factor of my success. As such I have since accepted a place to start at PwC as a Technology Consultant within their Cyber Security business line”
- Electrical and Electronic Engineering student

“The Bristol PLUS award equips already academically brilliant students with the essential skills required to be successful in the working world outside of their university course. Students are also able to demonstrate what they have learnt from their experience and can articulate how these experiences and skills relate to the workplace. This will significantly improve the employability of these students.”
