Education

Medical  
Teacher

Clinical  
Teacher

Academic  
Medicine

## ...for the Bristol Expeditionary Force

*Interested in medical education research?*

*Want to publish articles and research in medical education journals?*

*Want to present posters, communications and workshops at conferences?*

We would like to form a group of Bristol medical teachers with the aim of publishing in medical education journals and presenting at medical education conferences, bringing together medical teachers with common interests for peer mentoring and support.

We want to provide academic support and guidance, especially to new and less experienced medical educators so they can raise Bristol's profile in medical education, nationally and internationally.

**Initial meeting: 6pm, Thursday 4 November, Dolphin House, BRI  
- pizza will be provided.**

**For your invitation and further information, please register your interest with Simon Atkinson, either in person at Long Case training sessions or by email to [simon.atkinson@bris.ac.uk](mailto:simon.atkinson@bris.ac.uk)**
